MARKET LETTER

Special Correspondence.
Kansas City, Mo., Sept. 11.—Enormous cattle receipts and a trade to match the run were the features here last week. Receipts amounted to 80,500 head, including 9,000 calves, and a larger percentage of stockers and feeders was included than usual. The packers bought 35,500 head for slaughter here, 10,000 were purchased for killers at other points, and country buyers took the balance, over 900 car loads. Prices declined 15 to 30 cents during the week, most of the loss being on medium class stockers and feeders and the least on westerns suitable for the killers. These cattle are killing out better than heretofore, and packers are neglecting the higher priced natives as long as the westerns. This condition has been effective since last Thursday, including today. The supply today is 19,000 head, 6,000 less than last Monday. The market is steady on everything except stockers and feeders, which are strong to 10 cents higher, and fat natives, which are weak to 10 cents lower. No heavy rangery has been here, but 1,100 to 1,200 pound Colorados and Panhandle steers suitable for killers, sell at \$3.40 to \$3.80; most of the branded stockers sell at \$2.60 to \$3.85; feeders, \$3.15 to \$3.60; cows, \$2.65 to \$2.80; nice heifers stuff up to \$3.25; canners, \$1.65 to \$2.45; butchers, \$2.50; veal calves, 50 cents higher than a week ago and strong today, the top being \$6.50.

Mutton receipts are greatly enlarged at all the markets recently and prices are lower accordingly. From 10 to 25 cents was taken off last week and the market is 10 to 15 cents lower today. The country demand is first-class, and since the run has increased, these buyers have been able to get quite a number of sheep and lambs, and this seems to bring in more orders. Arizona sheep and yearlings weighing 85 pounds, sold today at \$4.75 to 4.85; some choice Arizona yearlings at \$5.40 last week, weighing 100 pounds. A string of California lambs sold today at \$6.75, which averaged 66 pounds, and some 63-pound Arizona lambs at \$6.50. Utah lambs sold at \$7.20 to 7.30 Thursday and Friday, the same stuff that brought \$7.30 to 7.50 the first of the week. Some 60-pound tals sold at \$6.50 today. Feeding wethers and yearlings are selling at \$4.40 to 4.55; lambs, \$5.50 to 5.75; ewes, \$3.65 to 4.25. The supply here today is 13,000 head, the total supply at the five principal markets being 80,000 head, as compared with 44,000 last Monday.

Live Stock Correspondent.

LOOK OUT FOR GERMS NOW

Summer Months Call for Constant Vigilance and Use of Mi-o-na

In the summer months' constant vigilance is necessary, or dangerous disease germs will be absorbed from food or drink.

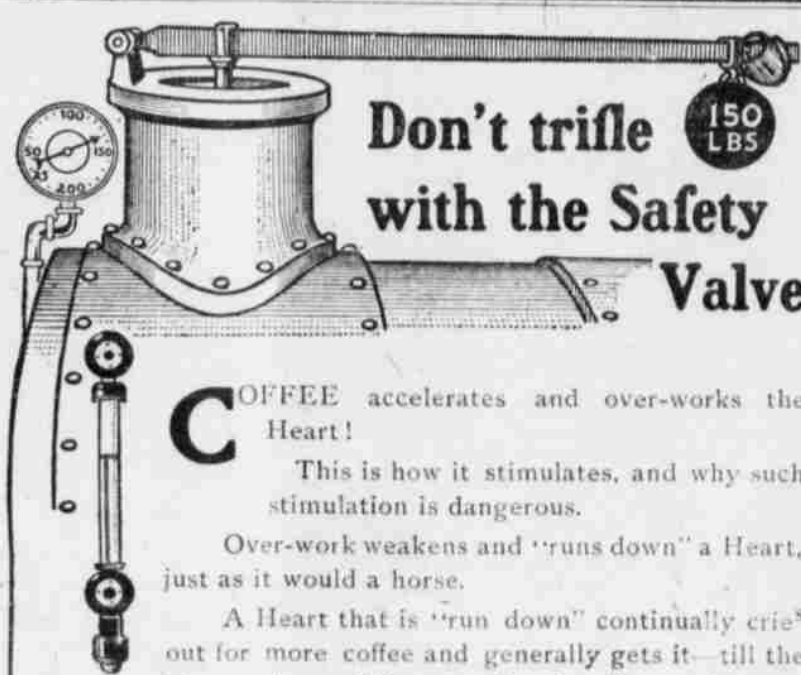

The so-called summer complaints and bowel troubles do not come to people with a healthy stomach, for Dame Nature kills the disease germs with the natural juices secreted by the healthy, digestive organs.

When there are pains or distress after eating, headache, belching or gas, sour food, and bad taste in the mouth, dizziness, heartburn, specks before the eyes, furred tongue, sleeplessness, and debility or weakness, it shows that the stomach needs the help of Mi-o-na. Just one little tablet out of a 50-cent box of Mi-o-na before each meal for a few days, and you will regain perfect health and strength and be proof against the germs of summer diseases.

Ask J. H. O'Reilly & Co. to show you the guarantee under which they sell Mi-o-na. It costs nothing unless it restores health.

ESPERANTO--THE NEUTRAL LANGUAGE

Esperanto was devised by Dr. Zamenhof, of Bialystok, Russia. The language has been in existence since 1887. Phonetic spelling is a feature. It has 2,000 root words. All the words common to the principal languages have been absorbed with little, if any, alterations. All of these words, by the use of prefixes and suffixes, are intended to be sufficient to express every shade of thought or action. The Roman alphabet is used. The pronunciation is phonetic throughout—one letter, one sound. The vowels are confined to five. All consonant vowels are eliminated. All singular nouns end in "o," all adjectives in "a," all derived verbs in "e" and all plurals in "j." All verbs are regular. There is only one conjugation. In pronunciation all emphasis comes on the last syllable but one. Many thousands of people throughout Europe can speak and write it fluently. There are many magazines devoted to it. It is propagated by associations organized to study and extend its use. The Esperanto grammar has been translated into more than twenty languages and dialects. It already has a considerable literature of its own. A big convention of persons interested in Esperanto has just been held at Boulogne, France.

Don't trifle with the Safety Valve

COFFEE accelerates and over-works the Heart!

This is how it stimulates, and why such stimulation is dangerous.

Over-work weakens and "runs down" a Heart, just as it would a horse.

A Heart that is "run down" continually cries out for more coffee and generally gets it—till the abnormal condition results in Heart-failure or nervous prostration.

Nature sets the pace at which the Heart should beat, just as the Government inspector sets the safety-valve on a steam boiler—at the highest pressure which it can safely carry.

Tampering with the "safety-valve" is risky.

"Coffee-heart" is the penalty for forcing, (with coffee), more work from Heart and Nerves than food supports them in doing.

And—Coffee-heart now debars many people from getting life insurance—an ominous fact worth pondering over.

Postum cures "Coffee-heart" and rebuilds Nerve tissue, while having the rich flavor of fine old Government Java.

Because—Postum is made from the outer coats of Wheat, in which are located the Phosphate of Potash that feeds Brain and Nerve up to normal condition, so that they feel as good all day as coffee makes them feel for a few minutes in the day.

These outer coats do not give up their full contents of Phosphate of Potash, except by thorough boiling—as in postum.

"Coffee-heart," Dyspepsia, and Nervousness, generally disappear when "Postum" has displaced Coffee six weeks.

A ten-day trial will show marked improvement.

"THERE'S A REASON."

Food Coffee

Just Received

A large assortment of everything new and nobby in the furniture line. Our mammoth furniture emporium is replete with everything to make housekeeping pleasant and at prices that will not hurt your pocketbook. It will pay you to investigate our stock before purchasing. We can furnish your home complete. Special attention given to mail orders. "Get the Habit." J. D. EMMONS, Successor to Futrell Furniture Company

Railroad Topics

Dr. W. D. Radcliffe, chief surgeon for the Santa Fe at Belen, arrived in the city this morning and spent the day here. He will probably leave tonight for Willard.

General Agent H. H. Haggood, of the Chicago & Alton railway, with headquarters in Denver, spent the day in the city on railroad business, and will leave tonight for the west.

Mrs. Frank Waldoth, of Belen, passed through the city this morning on her way to Willard to join her husband, who has charge of some work on the Santa Fe cut-off at this point.

Harvey Meade, son of J. M. Meade, the former resident civil engineer in Las Vegas for the Santa Fe, has returned to Topeka. He had been employed in an engineering corps on this division.

The net earnings of the American Car and Foundry company, of New York, for the three months ended on July 31, amounted to \$625,311, and the company has declared a quarterly dividend of 1 1/2 per cent on the preferred stock.

All of the operators and dispatchers on the Great Northern road, who remained at their posts during the recent strike, are to receive double pay for their work in August. This order includes operators and train dispatchers of the entire system.

It is for the courts of Indiana to determine the legal value of human teeth. Charles Powell, of Kokomo, lost two teeth in a railroad accident on the Pennsylvania line, and he has brought suit against the company for \$4,000 damages, \$2,000 for each tooth.

James Kurn, the new superintendent of the Rio Grande division, to succeed L. U. Morris, accompanied by Superintendent Charles Russell, of the New Mexico division, arrived in the city last evening and were guests of the Commercial club at its meeting last night.

Information has been received that George C. Millett, formerly chief engineer of the El Paso & Northeastern system, has been appointed general superintendent and chief engineer of the Ohio River & Columbus railway, with headquarters at Ripley, Ohio. The circular appointing Mr. Millett to that position is signed by D. Sullivan, vice president and general manager, former general manager of the Northeastern.

RAILWAY CLUB OFFICERS ELECTED AT ALAMOGORDO.

At a Railway club meeting Wednesday night new officers were elected for the ensuing year, says the Alamogordo News. Master Mechanic Fred L. Carson was elected president; Fred Hain, vice president; E. Beazley, secretary; H. S. Hadley, treasurer. Tom Fielding, Chris Paskesen and Frank Simmons were elected trustees. It is the opinion of all that Master Mechanic Carson as club president, will manage affairs so as to make the coming year of the club a profitable one for all concerned.

ABOUT THE NARROW GAUGE LINE.

Frank J. Buck, the civil engineer in charge of the survey for the proposed narrow gauge railroad from a point on the Santa Fe near Romero station, to the company's timber land, was in Las Vegas yesterday from the mountains.

Making a Hit WITH OUR Pilsner Beer

Is what we are doing with every one who tests its delicious flavor and strengthening qualities. There is no warm weather beverage that can compare with this refreshing drink on a warm day. It is not only pleasant to taste, but is invigorating and wholesome. \$3 per case of two dozen quarts; \$2 per case of two dozen pints.
